The motor controller of the recalled chainsaw can overheat during operation of the unit, posing fire and burn hazards.

Remedy:

Refund

Recall Date:

June 05, 2025

Units:

About 7,180 (In addition, about 21 were sold in Canada)

Consumer Contact

DR Power toll-free at 800-940-6923 from 8:30 a.m. to 5 p.m. ET Monday through Friday, email at recalls@DRPower.com, or online at <http://drpower.com/recalls> or at www.drpower.com and click on “Product Recalls” for more information.

Recall Details

Description:

This recall involves DR Power Equipment lithium-ion battery-powered chainsaws with the following model numbers: 414170, 414181, 41418 and 414170R. The chainsaws have a black handle and orange buttons, and a label printed with DR Pulse 62V. The model and serial number are printed on a white label located on the right side of the chainsaw handle.

Note: If you choose to dispose of the recalled chainsaw's lithium-ion battery, do not throw this lithium-ion battery in the trash, in the general recycling stream (e.g., street-level or curbside recycling bins), or in used battery recycling boxes found at various retail and home improvement stores. Lithium-ion batteries must be disposed of differently than other batteries, because they present a greater risk of fire. Your municipal household hazardous waste (HHW) collection center may accept this lithium-ion battery for disposal. Before taking your battery to a HHW collection center, contact that office ahead of time and ask whether it accepts lithium-ion batteries. If it does not, contact your municipality for further guidance.

Remedy:

Consumers should immediately stop using the recalled chainsaws and contact DR Power for a refund. Consumers will receive a pro-rated refund for the chainsaw tool based on the chainsaw's age. Consumers will need to show proof of the chainsaw's destruction by uploading a photograph in accordance with the destruction instructions and filling out the recall form online. For instructions on destroying the chainsaw, visit <https://www.drpower.com/BPC-recall>. If consumers choose to dispose of the recalled chainsaw's lithium-ion battery, consumers should recycle the lithium-ion batteries in accordance with local and state regulations.

Incidents/Injuries:

The firm has received 20 reports of incidents of fire, sparks and/or smoke. No injuries have been reported.

Sold At:

Independent power equipment stores nationwide and online at <https://drpower.com> from June 2018 through July 2024 for between \$200 and \$350.

Importer(s):

Generac Power Systems Inc., of Waukesha, Wisconsin

Manufactured In:

China
